

FirmataMarshaller.h

```
graph TD; A[FirmataMarshaller.h] --> B[stdint.h]; A --> C[Stream.h]; A --> D[stddef.h];
```

The diagram illustrates the header file dependencies for FirmataMarshaller.h. It is a hierarchical structure where FirmataMarshaller.h is the parent header, and it includes three child headers: stddef.h, stdint.h, and Stream.h. The parent header is represented by a grey box, while the child headers are in white boxes. Blue arrows point from the parent to each child, indicating the direction of inclusion.

stddef.h

stdint.h

Stream.h
